early
literacy

At StoryBox, we make reading a fun and immersive experience for everyone!

CONNECT. ENGAGE. INSPIRE. EDUCATE.

Why choose the Read-Along feature?

Our Read-Along feature adds an extra layer of magic - words appear on screen and light up in sync with the storyteller's voice, making it easier for children to follow along with the story as they listen.

Active Participation

Children can follow the text on screen, with words highlighted in sync as the storyteller reads aloud, transforming passive listening into an active reading experience.

Support for Emerging Readers

Perfect for emerging readers and those with English as another language, this interactive experience builds confidence, enhances literacy skills such as decoding, and encourages a love of reading.

TIP!
You can watch stories at normal speed or slow them to 75% or 50%. To do this, click on the Settings icon and select Playback rates.

An immersive experience

The combination of engaging storytelling, sound effects, visuals, and Read-Along text helps reinforce word recognition, vocabulary development, and develops comprehension by ensuring little learners stay focused on the story content.

Evidence-based Learning

Research indicates that one of the primary causes of reading difficulties in children is a struggle to decode written text¹.

Our Read-Along stories bridge the gap between screen time and reading time, offering a rich, interactive experience that encourages language acquisition and literacy development.
